EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Amend the title to read "Micromechanical Platform Pivotal on a Compliant Member".

In the specification, page 9, line 1, replace "5A-C", with --5A, 5B, and 5C--.

REASONS FOR ALLOWANCE

2. The following is an examiner's statement of reasons for allowance: the prior art does not teach a micromechanical system having a platform supported entirely above a substrate by at least one compliant member, where lateral movement of a tether away from the platform causes the platform to pivot on a compliant member and swing the platform up and away from the substrate.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
